## PERSONAL PROJECTS

The Online Learning Platform for Skill Development (OLPSD) (03/2024 - 05/2024)

- The Online Learning Platform for Skill Development (OLPSD) is an innovative web-based application designed to empower users with access to an array of educational resources and courses aimed at honing their skills and expanding their knowledge across diverse domains. It has key features such as User Authentication, Course Catalog, Progress Tracking, Instructor Dashboard, Course Enrollment.

Employee Management System (07/2023 - 08/2023)

- Employee Management System is powered by Django framework. With robust features such as user-friendly interfaces, secure authentication, and efficient CRUD operations, this system empowers administrators to effortlessly manage employee data.

Course Management System (09/2023 - 12/2023)

- This project is developed in Django framework with robust features such as user-friendly interface, payment system, course filtration based on level, categories. Also, has admin panel for managing administrative tasks such as adding, updating, deleting courses.

## CERTIFICATES
